

# Price List for BDEW Code Numbers, EIC Codes and Electricity Network Operator Numbers

---

(1) This Price List, effective as of 1 January 2017 for the identifiers BDEW Code Numbers, EIC Codes and Electricity Network Operator Numbers.

(2) For the purposes of the fee to be paid, all issued codes (BDEW code numbers, EIC code, electricity network operator numbers) will be summarised at the relevant settlement date and billed together. The settlement date for ascertaining the annual fee to be billed is 1 January each year.

(3) The annual fee to be billed comprises one fee per code owner and one fee per code. The fees are to be understood as net prices based on a quantity scale. The basis for ascertaining the quantity scale is the total number of electricity network operator numbers, BDEW code numbers and EIC codes valid on the relevant settlement date.

(4) For owners of codes who possess a valid code on 1 January of a given year ("existing customers") their company fee will be billed in the first quarter in advance as an annual fee for that calendar year. Codes which are added later or terminations during the year will first be included in the calculation of the fee at the next settlement date.

(5) Companies which request a code for the first time during the year and are consequently entered into the data base for the first time ("new customers") will, in the case of such a commencement of contract during the year, be billed the annual fee on a pro rata basis for the remaining months. The settlement date for the calculation of the fee to be billed is the first of the month following the validity date of the first issued code.

<b>Scale no.</b>	<b>No. of codes from [number]</b>	<b>No. of codes to [number]</b>	<b>Fee per company /code owner per year [euros]</b>	<b>Fee per code per year [euros]</b>
<b>1</b>	1	5	65.00	17.00
<b>2</b>	6	10	90.00	15.00
<b>3</b>	11	25	110.00	13.50
<b>4</b>	26	100	255.00	7.50
<b>5</b>	101	500	500.00	5.00
<b>6</b>	501	Open	1,000.00	4.00

The "Fee per company per year" and the "Fee per code per year" (each according to the specific scale based on the respective total number of codes) together comprise the total annual fee for the respective code owner.

## Sample calculations

### Company A ("existing customer"):

- Codes held as at 1 January of the given year:

Types of code	Number
EIC	4
Electricity Network Operator Number	1
BDEW Code Number	2
<b>Total</b>	<b>7</b>

- This leads to an allocation into Scale 2 and the application of the following fees:

Item	Number	Proportion	Individual fee in euros	Billing amount in euros
Company fee per code owner	1		90.00	90.00
Fee individual code EIC	4		15.00	60.00
Fee individual code electricity network operator number	1		15.00	15.00
Fee individual code BDEW code number	2		15.00	30.00
			Total	195.00

### Company B ("existing customer"):

- Codes held as at 1 January of the given year:

Types of code	Number
EIC	87
Electricity Network Operator Number	1
BDEW Code Number	2
<b>Total</b>	<b>90</b>

- This leads to an allocation into Scale 4 and the application of the following fees:

Item	Number	Proportion	Individual price in euros	Billing amount in euros
Company fee per code owner	1		255.00	255.00

Fee individual code EIC	87		7.50	652.50
Fee individual code electricity network operator number	1		7.50	7.50
Fee individual code BDEW code number	2		7.50	15.00
			<b>Total</b>	<b>930.00</b>

**Company C ("new customer"):**

- Company C has no codes as at 1 January of the given year, codes held is therefore "0"
- Company C applies for and receives two EIC codes in March of the given year.
- Codes held as at 1 April of the given year:

Types of code	Number
EIC	2
<b>Total</b>	<b>2</b>

- This leads to an allocation into Scale 1 and the application of the following fees with a reduction on a pro rata basis:

Item	Number	Proportion	Individual price in euros	Billing amount in euros
Company fee per code owner	1	9 / 12 months	65.00	48.75
Fee individual code EIC	2	9 / 12 months	17.00	25.50
			<b>Total</b>	<b>74.25</b>
